Smart AR Loading Technology for Reliance Washers
Augmented Reality for Accurate Washer Loading

Eliminate item misplacement and improper loading technique in Reliance PG automated parts washers with the easy-to-use Smart AR loading system. The app runs on a supplied iPad Pro and leverages Augmented Reality (AR) to guide operators in the loading of STERIS Reliance PG washer racks. It makes parts placement easy and consistent, reduces errors, lowers training requirements and improves productivity.

Guaranteed Performance

The Smart AR enables consistently accurate parts placement.

Higher Productivity

Ensures fast and easy compliance with validated procedures through custom-designed 3D overlay.

Reduced Training

Decreases learning curve for new hires and virtually eliminates the need for re-training.

Maximized Uptime

Eliminates the risk of poor item placement, the need to repeat wash cycles and potential impacts to production schedules.
